

# ATTENTION ALL TRAILER BUILDERS! WILL YOU BE READY..... ?

On 13 January 2014 the Federal Government announced the **NEW ADR 38/04 for Trailers.**

The new rule mandates the following major changes:

- Trailers to have either anti-lock brakes (ABS, or optional EBS), or a load proportioning brake system (LPV).
- A trailer with anti-lock brakes (ABS or EBS) must have automatic slack adjusters on all axles.

(Some Exemptions apply: Refer to latest ADR 38/04 Regulation)

ADR 38/04 will apply to new trailers over the following in-service dates:

- **1 July 2014** : Any trailer that requires a new ADR submission, i.e. new models and variants.
- **1 January 2015**: All new trailers.

**Air Brake Systems** are specialists in **Trailer Electronic Brake Systems** and can assist your company with further information and product training to ensure you meet the new regulation.

**Air Brake Systems** are authorised distributors for **WABCO** ABS, EBS and LPVs, and **Haldex** Automatic Slack Adjusters. For further information email [sales@airbrake.com.au](mailto:sales@airbrake.com.au) or call 02 9482 1733.
