

AirBrakeSystems

RECONDITIONED COMPRESSORS

Air Brake Systems offer an extensive range of **reconditioned compressors** to suit most American, European and British vehicles and brands (Bendix, Midland, Holset, Wabco, Clayton, Knorr, Marelli to suit Volvo, Scania, Mercedes, MAN, DAF, Iveco, International, Mack, Cummins, Ford, Detroit, CAT, Perkins, Phaser, Noyse etc)

Large Core Stock - Extensive Range

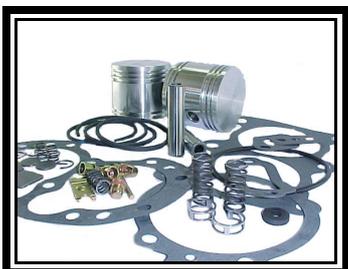

Cleaning - Acid Washing

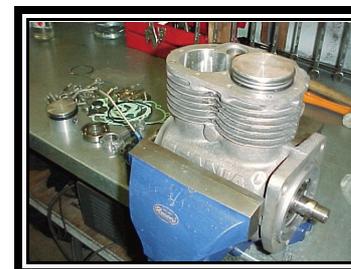

Cleaning - Bead Blasting

Boring & Grinding

Quality Parts - Oversize Pistons and Rings

Assembly to precise specifications

- ✓ **Quality Product - compressors re-bored - oversize pistons and rings - bearings resized**
- ✓ **100 % Australian labour content**
- ✓ **Six Month Warranty**
- ✓ **Quality control - each unit receives a quality control serial number to track parts and labour history.**

Except for boring and specialist machining operations, all work is carried out **in house** using **Australian labour** and all compressors are covered by our standard **six month warranty** for reconditioned parts.
